

Modeling of a natural circulation flow reactor for methanol synthesis from renewable sources

Description of experimental prototype

Master Thesis

Guillermo Enrique Gutierrez Neri

Report number:

Department: Process and Energy, Faculty 3mE
Section: Large Scale Energy Storage

Graduation Comitee:

Ir. J. van Kranendonk
Prof. dr. ir. W. de Jong
Dr. ir. M. J. B. M. Pourquie
Prof. dr. D. J. E. M. Roekaerts

Faculty of Mechanical, Maritime
and Materials Engineering

G.E. Gutierrez Neri
August 2018
